Clinical Experience

Progressive Speech Therapy, Ashburn VA

May 2024- Present

Clinician; Clinical Fellow

- Provides comprehensive speech-language services in-person and via telepractice to a diverse caseload of clients diagnosed with Childhood Apraxia of Speech, receptive and/or expressive language disorders, Autism Spectrum Disorder, ADHD, Down Syndrome, dyslexia, phonological disorders, fluency disorders, and voice disorders
- Conducts dynamic assessments, caregiver interviews, and clinical observations to gather information regarding the child's strengths and weaknesses, determine a diagnosis, and develop a care plan to improve overall functioning.
- Develops goals and intervention plans in a variety of skill areas including pragmatics, emerging language, decoding, motor speech, reading comprehension, and voice hygiene and quality.
- Consults with colleagues to manage shared caseloads and ensure provision of treatment with high-quality care across sessions.
- Collaborates with interdisciplinary teams, including caregivers, school teams, and other practitioners, to coordinate care, determine functional goals, and facilitate carryover of progress to different settings.
- Designs data charts, graphics and visuals for team resources, individualization of treatment materials, and dissemination of practice information.
- Assists with administrative tasks related to billing, scheduling, documentation for insurance, and general care for the office equipment and environment.

Winchester Medical Center & Winchester Outpatient Center, Winchester VA August 2023- December 2023

Graduate Clinician

- Evaluation and evidence-based treatment of adults with cognitive, language, speech, swallowing, or voice disorders, including, but not limited to, spasmodic dysphonia, vocal cord paralysis, muscle tension dysphonia, chronic cough, amyotrophic lateral sclerosis, professional voice users, COPD, and GERD

- Assisted with FEES and MBS procedures and communicated appropriate diet and compensatory strategy recommendations after interpreting results (Mendelsohn maneuver, supraglottic swallow, etc.) to nursing and medical staff.
- Provided education for patient and patient's family on disorders, treatments, and carryover techniques to facilitate rehabilitation, including head & neck cancer and short and long-term AAC use
- Independent administration/interpretation of bedside swallowing evaluations, followed with appropriate diet and compensatory strategy recommendations with modeling

Encompass Health Rehabilitation Hospital, Aldie, VA

May 2023-August 2023

Graduate Clinician

- Evaluated and treated voice disorders, including but not limited to, the following patient populations, aphonia, vocal cord paralysis, muscle tension dysphonia, presbyphonia, post-extubation, COPD, and GERD
- Evaluated and evidence-based treatment of adults with cognitive, linguistic, speech, vocal, or swallowing disorders with functional, organic, and neurogenic etiologies
- Assisted with FEES procedure and communicated appropriate diet and compensatory strategy recommendations after interpreting results (Mendelsohn maneuver, supraglottic swallow, etc.) to nursing and medical staff.
- Independently administered clinical swallowing evaluations, making appropriate recommendations after interpreting results.
- Provided individualized evidence-based treatment to improve swallowing strength and efficiency including the Expiratory Muscle Strength Trainer (EMST150)
- Administered formal and informal assessments including the WAB, CLQT, CADL-3, and VHI
- Participated in interdisciplinary and family meetings, educated client and family on treatment plans and carryover techniques to facilitate rehabilitation

Step Stone Therapy, Herndon, VA

August 2022-December 2022

Graduate Clinician

- Utilized evidence based practice to diagnose and treat children presenting with various communication modalities and speech, language, swallowing, and cognitive disorders disorders including, but not limited to, fluency disorders, pediatric feeding disorders (PFD) , Autism Spectrum Disorder, ADHD, Down syndrome, apraxia, megalencephaly, and selective mutism
- Provided functional home exercises and counseling services to aid family education and increase treatment efficacy.
- Collaborated with occupational therapists and COTAs in co treatments and planning sessions for clients
- Conducted standardized assessments including GFTA-3, CELF-5, PLS-5, and composed comprehensive evaluation reports
- Implementation of diverse augmentative and alternative communication profiles such as Touchchat and Picture Exchange Communication System (PECS)

Speech-Language Clinic, James Madison University, Harrisonburg, VA

June 2022-July 2022

- Conducted norm referenced assessments, led individual and group sessions for children in early intervention, school-age, and autism classrooms in-person and in teletherapy, presenting with auditory processing disorder, speech, language, developmental, cognitive, intellectual disabilities, and children with ASD, for a full camp day
- Wrote daily lesson plans and SOAP notes, gave parents weekly updates, and planned daily themes for camp
- Composed diagnostic and treatment reports for patients, their families, and outside clinics.
